Missouri Weekly Hay Summary Week ending 02/03/2017

A pretty mild week across the state as far as weather is concerned. Rains in the south the last couple weeks have helped to improve the condition ratings on the Drought Monitor but near 90% of the state is still listed as abnormally dry, things can change in a hurry with a wet spring but lack of snow cover which helps to fill the subsoil prior to growing season is sure something farmers are aware of. Hay listings have increased dramatically over the couple of weeks as many farmers are becoming more confident they are going to have left over hay supplies this feeding season. Marketing of hay however continues to be a very tough business this year. The supply of hay is moderate, demand is light and prices are mostly steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 180.00-240.00
Premium quality Alfalfa (RFV 170-180) 160.00-200.00
